OBJECTIVE

- Projects with a significant focus on increasing bankable reserves
- High-impact exploration programs

In 1999, Newman Enterprise Corp began trading with its main focus in Crude and Petroleum products, however following the de-merger of the partnership in which the company had operated, one of the partner operations was transferred to Blacksands Group Corp which continued with the Energy trading business while expanding its client base and strategic alliance. By the fall of 2009, Blacksands Group Corp had decided to fully restructure and diversify its businesses.

Today THE BLACKSANDSPACIFIC GROUP, INC ("BSP"), including subsidiaries, is a fully structured international Energy corporation within a new corporate structure both in the United States and Hong Kong with operations in Upstream Oil & Gas, Energy Trading & Marketing and proposal for downstream operations including strategic partnership for refineries.

BSP maintains strategic partnerships with sovereign entities and multinational clientele, whether trading Petroleum or Petroleum products on the global market or aligning with International Oil Companies in its exploration and production activities.
The company operates with integrity and full commitment to becoming one of the world's premier Independent and International Energy Corporation with major expansion of its exploration and production assets, while cultivating the right relationships for its energy trading business.
